

Innovative Solutions for Complex Problems

***SkillPro's* Engineering Services Group maintains stock of commonly used calibration gas in Emerald, Central Queensland**

Supplied by CAC Gas and Instrumentation, these disposable calibration gas bottles are ideal for on site and low volume applications. A huge range of mixtures is available as well as all required accessories including the rugged plastic carry case.

- Workshop vehicle methane detector checks
- Post installation calibration checks
- Pre-confined space entry calibration checks
- Refrigerant leak detector calibration checks
- CHPP MIBC detector calibration checks

To shorten lead time, and reduce freight costs, we keep a large selection of bottles and accessories in stock in our Emerald warehouse. If you regularly use a special gas, simply let us know the volume and frequency you require and we can ensure minimum delivery times. Please see overleaf for a selection of the extensive range.
